

Our properties are managed for the preservation of natural habitat, but also for enjoyment by the public.

These two interests may conflict, if visitors or passersby impact the land adversely. Examples might be cutting of trees, or simply littering.

In general, most of our properties do not have lengthy trails, and comprise a main entrance, marked by our sign, and an abbreviated entrance trail.

Welcome and thank you for your interest, time, and love of the land!

The WLCT owns over thirty properties, large and small, throughout Westbrook. Chances are, there is a Land Trust property not far from your doorstep. The Neighborhood Steward serves an important role in monitoring and protecting the WLCT's many and varied parcels. Our open spaces include upland forest, inland wetlands, and marine environments on the coast.

PRESERVING
OPEN SPACES
FOR 55 YEARS

What to look for? What has changed in the landscape?:

- Trees leaning or down and blocking entrance or trail
- Signs of inappropriate usage, such as motorized vehicles or damage to trees
- Litter or trash dumping
- Leaf dumping
- Parking issues
- Signs of a “party spot” or camping spot
- Missing WLCT sign

NEIGHBORHOOD PROPERTY STEWARD

As a Property Steward, you will be passively monitoring your designated Land Trust parcel for any changes that come to your attention. In addition, we hope you will engage in picking up visible litter safely, or engaging the Land Trust to do so.
